### Labor Institute Accused of 'Spying'

SANTIAGO, Aug. 26 (ANSA)  
— The newspaper "Ultima Hora" accused the American Institute for Free Labor Development of being a U.S. espionage service. It says that since 1962 over 8,000 Latin Americans participated in its seminars, and that "the U.S. government gave it a subsidy of \$10 million."

The newspaper added that the A.I.F.L.D. agents are distributed in 17 Latin American countries for espionage activities and are meddling in the activities of governments unpleasant to the United States.
